# Productivity Booster

If you do not have a ToDo list or your ToDo List is never completed and you sleep with tasks that are carried forward, this workshop is for you.

The workshop aims at giving you tools that will help you do more in less time and find time for you to do all that you wanted to do and could not do, because there was no time left.

It is the ability to avoid wasting materials, energy, efforts, money, and time in doing something or in producing a desired result. In a more general sense, it is the ability to do things well, successfully, and without waste.

Productivity of an individual not only affects the organization a person works for but also his/ her entire life and well-being. High productivity can lead to greater profits for businesses and greater income for individuals.

It will help you prioritize your work and focus on those few tasks that give you more results than work more on what produces less. You will find time for what matters the most.
